DAYTON
CHRISTIAN
SCHOOL

THE GENESIS 7 *Campaign*

We are living in a time that some have coined the Second Great Awakening in Christian Education.

The continual erosion of Biblical values has left an unprecedented number of Christian parents in search of an educational partner they can trust. For over 60 years, Dayton Christian School has humbly embraced God's call to meet this need as the only Biblically-based, discipleship school in Greater Dayton.

Much like in Noah's day, we've accepted the challenge to be bold in our faith and provide a refuge for families wanting to join in our mission, but we know time is of the essence. In the past five years, DCS' commitment to Biblical truth has attracted hundreds of new students and the interest isn't slowing.

“When I drop them off, I feel they are surrounded by a staff and student body and security system that truly cares for them and will nourish, teach, and protect them. They are becoming better little people and I am thankful for the Christian environment that puts God first.**”**

Our ability to partner with Christian families is at risk despite the growing interest. Our facilities are reaching capacity and we don't want to deny an educational opportunity that could change a child's life for eternity. The call that rang out in Genesis 7 still holds true today: He is calling us to stand apart from the world and use the resources He has given us to allow others to do the same.

Will you answer this call?

Join us in the mission to inspire students to discover their God-given potential, become life-long learners, and stand on God's absolute truth.

OUR NEED

Enrollment at Dayton Christian School has increased 76% in five years. This growth places greater demand on our campus' space. An earlier facility feasibility study estimated that we could grow up to 1,500 students, but did not consider the demand we would face in needs outside the classroom. We lack the square footage for critical extracurricular needs including chapel, physical education, fine arts, and athletic programming.

A portion of our physical education classes occur in a faux gym that takes up 4,000-square-feet of educational space. The construction of a performance center would allow this space to be used as five more classrooms to meet enrollment projections for the next five to 10 years.

We also have a need to invest in a home track and soccer/football field for our athletic program. Currently, students drive up to 20 minutes away for practices and home games. This places student safety at risk and weakens our ability to grow as a community. Excellence in facilities – such as athletic fields – is extremely important given that up to 80 percent of our high school student body participates in athletics each year.

STATS/QUICK FACTS

Largest private school in Dayton

2020-2021: **45% of building capacity**

2024-2025: **80% of building capacity**

76% PreK-12 enrollment increase past **5 years**

115% PreK-Grade 4 enrollment increase past **5 years**

1,275 PreK-12 enrollment for **2024-2025**

1,500 Enrollment capacity in current facility

7 classrooms created when performance center is built (5 classrooms from faux gym; 2 classrooms from weight room move)

20 minute drive time for student athletes to practice facilities (increasing safety concerns)

80% high school students who **participate in athletics**

28 school districts represented in DC student body

“Dayton Christian does a great job of encouraging independence in our children while systematically encouraging family strength. I couldn't imagine my child going to any other school.”

CAMPAIGN PROJECTS

TOTAL COST \$7 MILLION

9,500-SQUARE-FOOT PERFORMANCE CENTER

(\$4 MILLION)

- Expand opportunities for gymnasium and chapel space
- Provide additional competition areas for athletics
- Create areas for theater productions
- 2,700-square-foot weight room

FULL-SIZE ATHLETIC FIELD

(\$3 MILLION)

- Allow soccer, football, and track to train at home
- Build community by hosting games and practices on campus

THE GENESIS 7 CAMPAIGN – Recognize THE NEED

In a 2024 Parent Satisfaction Survey, parents' top concerns were that the school's enrollment growth would jeopardize small classes and require more room for extracurricular activities. More classrooms are needed to maintain low class sizes.

GRAPH: DC's 5-year growth

YEAR	ENROLLMENT	GROWTH*
2020-2021	717	3%
2021-2022	867	17%
2022-2023	978	11%
2023-2024	1081	10%
2024-2025	1275	18%

*A 3% increase in enrollment is considered extremely healthy for a private school.
